

KEERTHANA R

Software Development Intern | Java Backend | Full Stack | B.E. CSE, 2028
keerthana.rajvanitha@gmail.com | 9360517234 | linkedin.com/in/keerthana-r | github.com/Keethana_357

PROFESSIONAL SUMMARY

B.E. Computer Science student (CGPA: 8.12) at Kongu Engineering College with a 6-month Java backend internship at Zoho Corporation and an AI prompt engineering internship at Virdhi Tech Lab. Builds on coursework in Data Structures, Algorithms, and OOP through projects in AI/ML, full-stack development, and IoT. Pre-Finalist, Smart India Hackathon 2025, selected from 1,000+ national entries. Seeking a Software Engineering Internship in backend, full-stack, or AI/ML development.

TECHNICAL SKILLS

- Languages:** Java, C++, C, Python, JavaScript, HTML, CSS
- Core CS:** Data Structures & Algorithms, OOP
- Frameworks & Libraries:** React, Bootstrap
- Databases & Tools:** MySQL, DBeaver, GitHub, Docker, VS Code

EXPERIENCE

Software Development Intern — Zoho Corporation Private Limited

Dec 2025 – May 2026

Backend-focused role, Technical Staff team | Java

- Reviewed and updated Java codebases alongside backend engineers, applying OOP design principles to internal systems.
- Diagnosed and resolved backend issues in a production environment; earned a 'good' performance rating on the official internship certificate.

AI Prompt Engineer Intern — Virdhi Tech Lab Pvt Ltd

16 Jun 2026 – 18 Jul 2026

- Designed, tested, and refined prompts for AI applications, analyzing AI-generated responses to optimize accuracy and relevance.
- Gained hands-on exposure to UI/UX design while aligning prompt outputs with project requirements.

PROJECTS

AI-Driven Health Chatbot

Python · NLP · AIML

- Developed an AI-powered chatbot classifying 15+ health intent categories with ~85% query accuracy.
- Designed accessible UI/UX and an automated intent-matching pipeline for real-time guidance.

Smart Canteen Management System

Java · OOP · Data Structures · MySQL

- Engineered a Java ordering/billing system for 100+ menu items, reducing billing errors by 90%.
- Applied OOP principles and a linked-list order queue; implemented SQL-backed persistence for order history and inventory.

Multi-Service Web Platform

HTML · CSS · JavaScript · MySQL

- Built a full-stack web app with authentication, service booking, payment workflow, and support ticketing.
- Designed a normalized MySQL schema; backend supports concurrent multi-user requests.

EDUCATION

B.E. Computer Science and Engineering — Kongu Engineering College, Erode

Aug 2024 – Jun 2028 (Expected)

CGPA: 8.12 (pursuing) | Class XII, CBSE, Rasi International School (2024, 80%) | Class X, CBSE (2022, 85%)

ACHIEVEMENTS

- Best Contributor Award – Open Source Lab — awarded by Tamil Nadu Java User Group (TN JUG) in collaboration with Kongu Engineering College, for outstanding contribution and active involvement in Open Source Lab initiatives.
- Pre-Finalist, Smart India Hackathon 2025 — national-level, shortlisted among top teams from 1,000+ entries.
- Finalist, Internal College Hackathon 2025 and First-Year Exclusive Mini Hackathon 2025 — selected among top teams from senior and first-year cohorts.

ACTIVITIES & LEADERSHIP

- SPOC (Single Point of Contact), Innovation and Entrepreneurship Forum (IEF).
- Member, Computer Society of India (CSI).
- NSS Volunteer, Kongu Engineering College — community outreach and social development programs.
- Open Source Contributor, GitHub (github.com/Keethana_357) — active contributor to software projects.
